FIELDS

CANSSI WORKSHOP *on* **COMPLEX SPATIO-TEMPORAL DATA STRUCTURES:** **Methods and Applications**

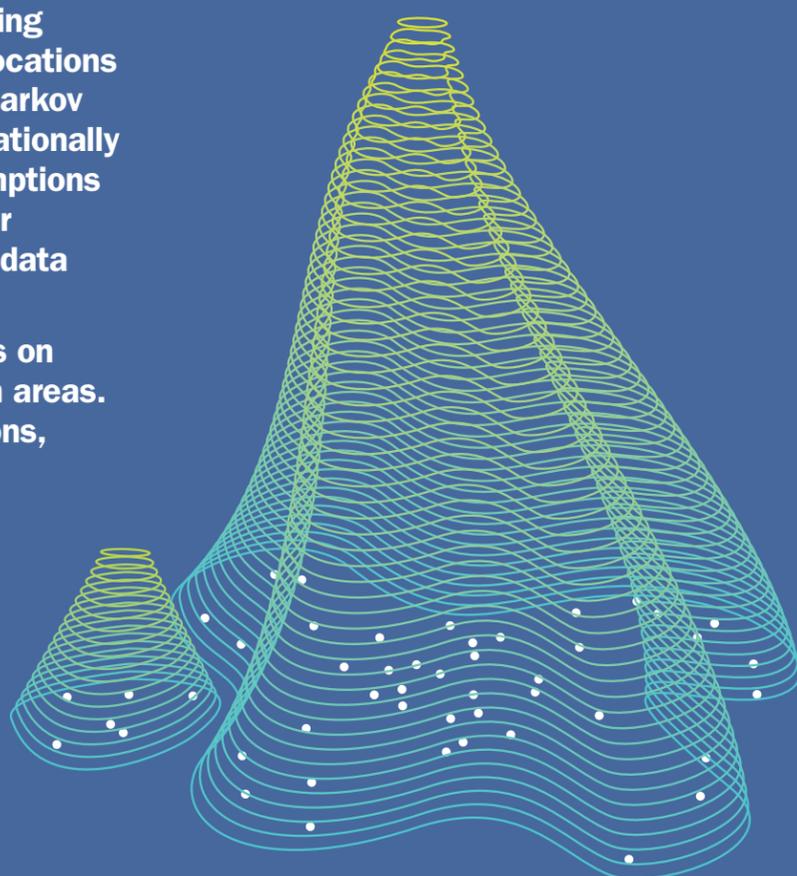

APRIL 21 - 24, 2015 at THE FIELDS INSTITUTE

This four-day workshop will bring together statistical methodologists and applied statisticians with a variety of expertise and research areas but with a common interest in complex and non-standard spatio-temporal problems.

'Complex' spatio-temporal data includes that which is observed irregularly, aggregated spatially, or exhibiting hierarchical but non-nested correlations. Modelling such data can require making inference on the underlying process throughout its entire spatial extent and not only at the locations where data are observed. Simplifying assumptions such as the Markov property and conditional independence can often lead to computationally feasible and accurate inferential methodologies. Any such assumptions should be consistent with the physical or biological process under investigation, however, and modelling of complex spatio-temporal data often requires subject-area as well as statistical expertise.

The workshop will include invited talks with prepared discussants on methodological topics and giving overviews of related application areas. A generous allocation of time will be allocated for informal sessions, discussions and other forms interaction amongst participants.

This workshop is an allied activity of the Fields Institute's 2015 Thematic Program on Statistical Inference, Learning and Models for Big Data.

ORGANIZERS

Patrick Brown
*University of Toronto,
Cancer Care Ontario*

Jamie Stafford
University of Toronto

CONFIRMED SPEAKERS

Peter Cragmile
Ohio State University

Peter Digle
*Lancaster University,
University of Liverpool*

Peter Hall
University of Melbourne

Lance Waller
Emory University

Daniel Simpson
University of Warwick

Michael Stein
University of Chicago

Benjamin Taylor
Lancaster University

DISCUSSANTS & CONTRIBUTORS

John Braun
University of British Columbia, Okanagan

Patrick Brown
*University of Toronto,
Cancer Care Ontario*

Noel Cadigan
Memorial University

Charmaine Dean
Western University

Thierry Duchesne
l'Université Laval

Chris Field
Dalhousie University

Joan Hu
Simon Fraser University

Farouk Nathoo
University of Victoria

Joanna Mills Flemming
Dalhousie University

Duncan Murdoch
Western University

Jamie Stafford
University of Toronto

Mahmoud Torabi
University of Manitoba

Douglas Woolford
Laurentian University
